

PRACTICAL 1:

Design a Professional Resume

AIM:

To design a professional resume using online templates.

Objectives

- To understand professional formatting of resumes
- To identify key resume components
- To export resume in PDF format

Materials Required

- Computer with internet.
- Canva / MS Word / Google Docs.

Procedure

Open the Resume-Designing Application

Start by launching **Canva**, **Google Docs**, or **MS Word** on your computer.

- If using Canva, log in with your account and go to the Templates section.
- If using Google Docs, open a new document through Google Drive.
- If using MS Word, open the application and select “New Document.”

2. Browse and Select an Appropriate Resume Template

Navigate to the resume template section. Browse through various designs and choose a template that matches a **professional look**, preferably clean, simple, and easy to read.

- Canva offers a wide range of modern templates.
- Google Docs provides basic but neat resume layouts.
- MS Word includes both modern and classic templates.

- **2.Enter Personal Information**

Replace the sample text in the template with your **persona details**, such as:

- Full Name
- Contact Number
- Email Address
- Address (optional)
- LinkedIn or portfolio links (if applicable)
Ensure the information is accurate and formatted consistently.

2. Add Academic Details

Insert your educational background in the provided section of the template.
Include:

- Course/Program Name
- Institution Name
- Duration (Year of study)
- Grades or CGPA (if required)
Arrange information in **reverse chronological order** (most recent first).

3. Write a Career Objective

Add a short, clear career objective highlighting your goals, strengths, and professional aspirations.

Keep it concise (2–3 lines) and tailored to the field you are applying for.

4. Include Skills and Achievements

Create a section for skills, both technical and soft skills. Examples:

- Technical skills (e.g., MS Office, programming languages)

- Soft skills (e.g., communication, teamwork)
Add any academic achievements, certificates, awards, or projects relevant to your profile.

5. Format the Resume Professionally

Adjust the text formatting to ensure clarity and readability:

- Use headings for each section (e.g., Education, Skills, Objective).
- Use bullet points to list items cleanly.
- Maintain consistent font style, size, and alignment throughout.
- Ensure proper spacing and margins for a neat layout.
Review the resume for grammatical correctness and visual balance.

6. Preview and Make Final Adjustments

Scroll through the entire resume to check layout alignment, spacing, colors, and text placement.

Make sure the document looks uniform and professional before exporting.

7. Export the Resume in PDF Format

Once the final layout is ready, export or download the document as a PDF file, which preserves formatting.

- In Canva, click Download → PDF Print.
- In Google Docs, go to File → Download → PDF Document.
- In MS Word, select File → Save As → PDF.

PRACTICAL 2

Career-Oriented Presentation

AIM

To create a career presentation using slides, transitions, and animations.

Objectives

- To design a multi-slide professional presentation
- To apply transitions and animations

Materials Required

- PowerPoint or Google Slides

Procedure

Open a blank presentation

Launch PowerPoint/Google Slides and select the option to create a new blank presentation.

This opens a fresh workspace where you will design your slides.

Create a title slide

Insert a title slide layout and add the presentation title along with your name or subtitle.

Ensure the title is clear, readable, and visually centered on the slide.

Add minimum 7 slides

Use the “New Slide” option to insert at least seven additional slides with appropriate layouts.

Each slide should focus on a single topic or idea for clarity.

Insert images, icons, and bullet points

Add relevant images and icons to visually support your content.

Use bullet points to present information in a structured and easy-to-read format.

PRACTICAL- 3

Digital Awareness Poster in Canva

AIM

To design a poster for Digital Awareness Week using Canva.

Objectives

- To apply design tools
- To create a visually appealing poster

Materials Required

- Canva account
- Computer with internet

Procedure

Login to Canva

Open Canva in your browser and sign in using your email or Google account. This gives you access to all templates, design tools, and editing features.

Select poster layout

Search for “Poster” in the template section and choose a suitable layout. This layout provides a ready-made design structure to begin your poster.

Add “Digital Awareness Week” text

Insert a text box or edit the existing heading and type “Digital Awareness Week.”

Adjust the font style, size, and alignment to make the title prominent.

Insert icons and graphics

Go to the “Elements” tab to add icons, shapes, and relevant graphics. Position them creatively to enhance the visual appeal and message of the poster.

PRACTICAL- 4

Professional Email (Internship Application)

AIM

To draft and send a professional internship email with attachment.

Objectives

- To compose a professional email
- To attach documents

Materials Required

- Email account
- Resume file

Procedure

Open Gmail

Go to the Gmail website or app and log in with your email account.

This opens your inbox where you can create and send emails.

Click Compose

Select the “**Compose**” button to open a new email window.

A blank message box will appear on the screen.

Write subject line

Enter a clear and concise subject that reflects the purpose of the email.

This helps the recipient understand the message at a glance.

Write professional message

Type a polite, well-structured message addressing the recipient formally.

Keep the tone respectful and include necessary details or requests.

Attach resume

Click the **attachment (paperclip)** icon and select your resume file from your device.

PRACTICAL- 5

Create Google Form – Attendance Report

AIM

To design a Google Form and analyze responses.

Objectives

- To create form with multiple question types
- To collect sample responses
- To analyze responses

Materials Required

- Google account
- Internet

Procedure

Create new Google Form

Open Google Forms from your Google account and click “**Blank Form**” to start a new form.

This opens an empty form where you can add questions.

Title it “Student Attendance Report”

Enter the title at the top of the form and add a short description if needed.

This helps respondents understand the purpose of the form.

Add MCQs, rating, checkbox and short answer

Use the question type menu to insert multiple-choice questions, rating scales, checkboxes, and short-answer fields.

Arrange the questions in a logical order for easy response.

Customize theme

Click the **Theme** icon to change colors, fonts, and header images.

This improves the appearance and makes the form visually appealing.

Share form and collect responses

Use the **Send** button to share the form via link, email, or QR code.

Allow participants to submit their responses through any device.

View summary charts

Go to the **Responses** tab to see automatic charts and graphs generated by Google Forms.

These visual summaries help you quickly analyze the collected data.

Take screenshots

Capture screenshots of the form, responses, and charts for documentation.

Save them for use in reports or practical records.

PRACTICAL 6:

Create Digital Identity – LinkedIn

Aim:

To create and modify digital identity using LinkedIn.

Objectives:

- To create professional online profile
- To update personal information

Materials Required:

- LinkedIn account

Procedure:

Create LinkedIn profile

Sign up on LinkedIn using your email and set up a new profile.
This gives you access to professional networking and career-building tools.

Add photo, bio, education

Upload a clear professional photo and write a short bio summarizing who you are.
Enter your educational details to complete your basic profile information.

Add skills

Use the “Skills” section to list your technical and soft skills.
Adding relevant skills increases your visibility and strengthens your profile.

Create a simple post

Click “Start a Post” and write a short, meaningful update or introduction.
Share it publicly to begin engaging with your professional network.

Change privacy settings

Go to **Settings & Privacy** to adjust what others can see on your profile.
Modify visibility, contact preferences, and data-sharing options as needed.

Practical 7:

Using Google Drive / OneDrive

Aim:

To upload and organize files in cloud storage.

Objectives:

- To manage files online
- To share files securely

Materials Required:

- Google Drive / OneDrive account

Procedure:

1. Create folder “Unit 3 Practical Work”

Open Google Drive or your file manager and create a new folder named “**Unit 3 Practical Work.**”

This folder will store all files related to the practical.

2. Upload documents

Click the **Upload** option and select the required documents from your device.
The files will be saved inside the main folder for easy access.

3. Create subfolders

Inside the main folder, create additional subfolders to categorize your documents.
This helps keep your work organized and easy to locate.

4. Share main folder with View only

Right-click the folder, choose **Share**, and set the permission to **View only** for others.
This allows people to see the contents but prevents them from editing or deleting files.

Practical 8:

Identify Phishing Attack

Aim:

To identify phishing attempts through digital messages.

Objectives:

- To detect cybercrime
- To recognize scam elements

Materials Required:

- Provided phishing example

Procedure:**Read message text**

Carefully go through the entire message to understand its content and intent.

Make note of any unusual requests or unfamiliar senders.

List cybercrime type

Based on the suspicious elements, categorize the message as phishing, fraud, malware attempt, etc.

This helps in understanding the nature and threat level of the cybercrime.

Write verification steps

Suggest ways to confirm authenticity, such as checking the sender's email, contacting the official source, or scanning links.

These steps help prevent falling victim to cyberattacks.

Identify one real phishing email : A final-year student, Aman, receives a LinkedIn message saying:

"You are shortlisted for a Remote Software Developer role at Google.

Salary: ₹18 LPA.

Pay ₹2,499 as verification fee.

Limited seats. Pay now to confirm."

ANSWER THE QUESTIONS :-

a) What type of cybercrime is happening here?

ANS- Job scam .

b) List 3 red flags that show it is a scam?

ANS- 1. Asking for verification fee .

2. Saying for limited seats .

3. the offer came through unknown / unofficial source (because they haven't mentioned Email or contact no.)

Practical 9:

Google Form Quiz with Timer

Aim:

To create a quiz with automatic grading and time limit.

Objectives:

- To automate quiz assessment
- To use time limit add-on

Materials Required:

- Google Forms
- Timer add-on

Procedure:

1. Create Google Form – Open Google Forms and start a new blank form to set up the structure of your activity.
2. Convert to quiz – Enable “Make this a quiz” in the settings so you can assign points and correct answers.
3. Add 5 MCQs + 1 short answer – Insert five multiple-choice questions and one short-answer question, customizing options and points.
4. Enable 1-response limit – Turn on “Limit to 1 response” so each user can submit the form only once.
5. Shuffle questions – Activate the shuffle feature to randomize the order of questions for every respondent.
6. Add timer add-on – Install a timer add-on from the Add-ons menu to set and control the quiz duration.
7. Send link – Use the “Send” button to generate and share the form link with participants.

The screenshot shows a Google Form titled "NALS MCQ Test" in edit mode. The form has a header image of a desk with a notepad, pens, and a cup of coffee. The title is "NALS MCQ Test" and it states "It is compulsory to answer all the questions!!!!!!". Below the title, the first question is "1. Which of the following best defines a computer?" with two radio button options: "A device for entertainment" and "An electronic device that processes data". The interface shows tabs for Questions, Responses, and Settings, and a "Published" button.

Practical 10:

AI Text Bias & Plagiarism

Aim:

To analyze AI generated text for plagiarism and bias.

Objectives:

- To detect biased statements
- To improve writing

Materials Required:

- ChatGPT / Gemini
- Grammarly

Procedure:

1. Generate paragraph from AI – Use an AI writing tool to produce a clear, coherent paragraph on your chosen topic.
2. Check plagiarism – Run the paragraph through a plagiarism checker to ensure originality and proper attribution.
3. Check grammar – Review the text with a grammar tool to correct errors in punctuation, spelling, and sentence structure.
4. Identify biased statements – Examine the content for subjective language, assumptions, or one-sided viewpoints.
5. Rewrite neutrally – Revise the paragraph to remove bias, ensuring the tone is balanced, objective, and fact-based.

Easily spot and correct plagiarism to make sure that your work is one-of-a-kind.

High plagiarism level

Online and offline learning both aim to provide knowledge and skill development, but they differ in delivery and experience. Online learning offers flexibility, accessibility, and interactive digital resources that allow learners to study anytime and anywhere, often supported by multimedia tools and virtual collaboration. Offline learning, on the other hand, emphasizes face-to-face interaction, structured schedules, and immediate feedback from teachers, fostering discipline and social engagement. Together, they complement each other—online learning expands opportunities beyond physical boundaries, while offline learning strengthens personal connections and practical experiences.

Practical 11:

Compare AI vs Human Writing

Aim:

To compare AI-generated content with student-created content.

Objectives:

- To identify difference in writing
- To understand AI limitations

Materials Required:

- AI tool

Procedure1. Write paragraph manually – Compose a paragraph yourself using your own ideas, wording, and structure on the selected topic.

2. Generate same topic using AI – Use an AI tool to produce another paragraph on the same topic for comparison.

3. Create comparison table – Organize both paragraphs side-by-side in a table to compare style, clarity, tone, and content differences.

Feature	Human-Written Paragraph	AI-Generated Paragraph
Style	Simple, personal, straightforward	More polished and structured
Tone	Informal and relatable	Formal and academic
Clarity	Clear but basic explanations	Clear with more detailed phrasing
Content	Focuses on everyday usefulness	Highlights broader digital skills and adaptation
Limitations	May lack depth or advanced vocabulary	May sound generic or overly formal

Practical 12:

NotebookLM Project

Aim:

To create revision notes using NotebookLM.

Objectives:

- To generate study guide
- To create flashcards

Materials Required:

- NotebookLM

Procedure:

1. Create NotebookLM project – Start a new project in NotebookLM to organize your materials and AI-generated outputs in one workspace.
2. Upload two resources – Add two documents or sources to the project so the AI can analyze and reference them.
3. Generate study guide – Use NotebookLM's tools to create a structured study guide summarizing key concepts from the uploaded resources.
4. Generate flashcards – Automatically produce flashcards that highlight important facts, terms, or ideas for easier review.
5. Review accuracy – Carefully check the summaries and flashcards to ensure all information is correct and reflects the original resources.
6. Take screenshots – Capture screenshots of the study guide and flashcards to document your work or include them in your submission.
